### Expert Reviews:

Edmunds.com: In spite of its generous proportions, the Durango manages to deliver both a smooth, composed ride and nimble handling around corners. Dodge's SUV is similarly adept in off-road situations, offering plenty of wheel travel and a playful demeanor.

newCarTestDrive.com: Cargo capacity is quite impressive, making the Durango a great hauler. Behind the second row of seats is 68 cubic feet of cargo space, equal to the total for many SUVs. Put the second row down, and there's 102 cubic feet of cargo capacity.

KBB.com: for those with serious towing and off-road adventure needs there is just no substitute for a full-blown, body-on-frame SUV. At the top of the power and comfort category is the Dodge Durango, a seven-passenger transportation system with a rugged and distinctive style, a fairly plush interior and the option of a HEMI V8 under the hood.

ConsumerReports.org: The Durango rides quite comfortably, with controlled body motions and good isolation from bumps.

### *JDPower.com Power Circle Ratings*

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
