Expert Reviews:

Edmunds.com: Upscale cabin; abundant high-tech features; excellent ride/handling balance; excellent crash test safety scores; available fuel-efficient turbocharged four-cylinder.

KBB.com: The rigid unit body has none of the squeaks and rattles so commonplace in most truck-based SUVs, while Ford's Curve Control throttle intervention helps maintain a safe speed when rounding sharp corners.

CarAndDriver.com: The three-row Explorer now provides a more carlike driving experience, based as it is on the platform that also underpins Ford's Taurus sedan and Flex wagon.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
