Expert Reviews:

Edmunds.com: If you're looking for traditional SUV features, such as high ground clearance and a high seating position, but you want it in a smaller, more fuel-efficient package, the Ford Escape makes a good choice.

newCarTestDrive.com: The Escape features upholstery cloth made from 100-percent recycled material. You'd never know by its look or feel, and Ford claims that compared to upholstery made from virgin fiber, production will conserve about 600,000 gallons of water and 7 million kilowatt hours of electricity annually, reducing carbon dioxide emissions by 1.8 million pounds.

KBB.com: If you're looking for traditional SUV features, such as high ground clearance and a high seating position, but you want it in a smaller, more fuel-efficient package, the 2010 Ford Escape makes a good choice.

ConsumerReports.org: Virtues include interior spaciousness, easy access, and good visibility.

CarAndDriver.com: Basically unchanged for 2010, this trio of compact SUVs continues to deliver decent performance and better-than-decent fuel economy.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
