Expert Reviews:

Edmunds.com: With an ideal mix of power, brawn and refinement, the 2011 Ford F-350 Super Duty is a top pick for a heavy-duty truck.

newCarTestDrive.com: Better defines the 2011 Super Duty relative to its predecessors: more payload, more towing, more weight, more efficiency, more choices, but not necessarily more money.

KBB.com: Beyond its natural ability to tow, haul and generally move anything not firmly anchored to the ground, Ford's Super Duty trucks are loaded with modern conveniences and high-tech gadgets to make a busy work day go a whole lot smoother.

CarAndDriver.com: Fun-to-drive here is a function of how well these big trucks deal with big loads. New turbo-diesel V-8 is remarkably quiet and delivers laudable mpg.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
