Expert Reviews:

Edmunds.com: America's top-selling pickup is offered in a substantial array of trims and powertrains to accommodate all manner of towing, hauling or off-road needs.

KBB.com: Perhaps most impressive was the towing demonstration in which we hauled 20-foot trailers with absolutely zero drama, thanks in large part to the pickup's trailer sway control, rearview camera and integrated trailer-brake controller.

Pickuptrucks.com: In the quantitative section of our test, with 13 different performance tests and max rating calculations, the Ford outdistanced the competition by a significant margin. It won five competitive events outright and came in second in six others.

Vehicle History Highlights:

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
