### Expert Reviews:

Edmunds.com: Antilock disc brakes, stability control, trailer sway control and a full complement of airbags (including front seat side and full-length side curtain) are standard across the board.

newCarTestDrive.com: Smooth and quiet, the F-150 is comfortable on bumpy streets around town, over rugged terrain such as that found at construction sites, and on the open road.

KBB.com: Ford is so proud of the F-150's payload and towing capabilities that it might be natural to assume the new version would "ride like a truck." The surprising news is it doesn't. Instead, each and every version of the F-150 we've driven offered exceptional ride quality - no shudders, hops or hiccups - and a level of quiet that was startling.

ConsumerReports.org: The rear seats fit three adults with ease, providing generous leg and head room. Three adults can sit across the rear bench seat without any side contact.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
