Expert Reviews:

Edmunds.com: Low monthly fuel cost in normal driving; useful 300-mile maximum range; appealing standard features; excellent crash test scores.

newCarTestDrive.com: The Volt comes with a full complement of air bags, all of the electronic driving aids, and a complex system of redundant safety features to protect occupants and the battery pack in severe impact, rollover or floods.

KBB.com: With its cool and elegant styling, and even more cool and elegant interior, the 2012 Chevy Volt plug-in hybrid not only makes a statement about your environmental consciousness, it also says something about your good taste and strong sense of style.

CarAndDriver.com: An electric car that won't give you range anxiety, torque-rich feel of the electric motor, usable 40-mile electric range, feels remarkably unremarkable considering the technology.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
