KBB.com: With its cool and elegant styling, and even more cool and elegant interior, the 2012 Chevy Volt plug-in hybrid not only makes a statement about your environmental consciousness, it also says something about your good taste and strong sense of style.

CarAndDriver.com: An electric car that won't give you range anxiety, torque-rich feel of the electric motor, usable 40-mile electric range, feels remarkably unremarkable considering the technology.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
