Expert Reviews:

Edmunds.com: And this was to be a driver's car -- so serious were the engineers working on the CTS that they used Germany's famed Nürburgring test track, and the result was the CTS's confident, almost tossable nature.

newCarTestDrive.com: The Cadillac CTS drives wonderfully around town, no muss, and no fuss. It cruises comfortably on the freeway and feels right at home on winding roads. It's this mix of comfort, easy functionality and the heart for a spirited drive that defines a sports sedan, and the CTS delivers in spades.

KBB.com: The CTS loves hugging the road—just try to peel the tires from the asphalt and it maintains a commendable effort to stay put. The heavily-weighted steering wheel takes only the slightest movement to turn the car.

ConsumerReports.org: The Cadillac CTS's quick reflexes, powerful performance and spacious cabin make it a valid consideration in the luxury sport sedan segment.

medley: Not only does the CTS boast sporty handling, responsive braking, and a tradition of technology innovation, its performance statistics allow it to compete with BMW, Mercedes, and Audi.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
