KBB.com: If you need the kind of cargo and kid space usually provided by a minivan, the 2012 GMC Acadia SUV will come as a pleasant surprise. The GMC Acadia's styling avoids the dreaded stigma of Minivan Mom (or Dad) without compromising utility.

CarAndDriver.com: The added traction of all-wheel drive is worth the price when accelerating in slippery stuff.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
