Expert Reviews:

Edmunds.com: The 2012 GMC Yukon is a leading choice for a traditional large SUV thanks to its comfortable cabin and strong towing and hauling capabilities.

newCarTestDrive.com: The GMC Yukon is a full-size SUV with power, space, and towing capacity. It can haul loads of gear, it can survive repeated pounding over rugged terrain, it can pull trailers, all while transporting four or five adults in comfort.

KBB.com: The 2012 GMC Yukon and Yukon XL deliver a rather confident and civilized ride, with handling aided by numerous sophisticated electronic and mechanical suspension components.

CarAndDriver.com: Shorter than the Suburban and Yukon XL, these classic SUVs are a smart choice for buyers who need pickup-truck capability but want a more manageable size.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.

Expert Reviews

Expert Reviews are excerpts from reviews and automotive awards from sites across the internet. The sites include newCarTestDrive.com, Edmunds.com and other similar sites.

The positive Expert Reviews are only excerpts of the full article or review. The full article may contain additional comments, both positive and negative, regarding the vehicle. For a more complete understanding of the scope of the review, you should read the entire review or award, which can be obtained from the referenced site.
