Expert Reviews:

Edmunds.com: The Traverse is a member of GM's impressive large car-based three-row SUVs. It has a spacious and quiet interior.

newCarTestDrive.com: On the road, the Traverse is surprisingly nimble. It handles a more like a family sedan than a Chevy Tahoe. The steering is direct and responsive, if light, and the brakes are easy to modulate. The ride is comfortable and much more stable than that of large SUVs, which can often bound and lean.

KBB.com: If you're looking for a big family vehicle with excellent safety ratings, the ability to tow 5,200 pounds and reasonably good fuel economy for its size, the Chevrolet Traverse may be the best game in town.

ConsumerReports.org: The steering is well weighted and communicative. Only the 42-foot turning circle reminds you of this vehicle's bulk. The Traverse felt stable and secure when pushed to its limits and it managed a respectable speed negotiating our avoidance maneuver.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
