Expert Reviews:

Edmunds.com: The 2013 Chevrolet Tahoe deserves strong consideration if you're shopping for a large, traditional SUV with impressive towing capacity.

KBB.com: The power-bulge hood and big wheels and tires (up to 20-inchers) give the Tahoe a substantial road presence, an attitude that becomes particularly CIA-like when it's finished in black.

CarAndDriver.com: Shorter than the Suburban, this classic SUV is a smart choice for buyers who need pickup-truck capability but want a more manageable size.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
