Expert Reviews:

Edmunds.com: The 2012 Chevy Tahoe deserves strong consideration when shopping for a large, traditional SUV, thanks to its comfortable cabin, road manners and impressive towing capacity.

newCarTestDrive.com: The 2012 Chevrolet Tahoe offers good towing capabilities and can haul up to nine passengers or two passengers and a mountain of cargo or anything in between.

KBB.com: We also give high marks to the standard StabiliTrak electronic stability control system because it is potentially life-saving technology that can significantly reduce single-vehicle accidents.

CarAndDriver.com: Shorter than the Suburban and Yukon XL, these classic SUVs are a smart choice for buyers who need pickup-truck capability but want a more manageable size.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
