### Expert Reviews:

Edmunds.com: The Honda Accord maintains the car's traditional mix of both sporty handling and comfort. Handling is very good, with excellent steering that provides a tremendous combination of just-right feel and weight. While other sporty midsize sedans tend to thrive on twisty roads or city streets, the Accord does the best job of remaining consistently competent no matter the driving condition.

newCarTestDrive.com: The Accord is big on efficiency, be it getting the most power and range from a gallon of gas with the least emissions, making the largest interior available given the exterior space it takes up, or providing the smoothest, quietest ride possible in the lightest weight.

KBB.com: The refinement with which the Honda Accord delivers its distinctive brand of relaxed enthusiasm is almost uncanny. The throttle responds to your right foot as if reading your mind, seamlessly delivering exactly as much or as little power as you want. Steering, likewise, is perfectly weighted and the car tracks straight down the highway requiring very little driver input.

ConsumerReports.org: The Accord is one of the best family sedans on the market. It has a roomy cabin, agile handling, and a steady, compliant ride. Most controls are logically arranged. The driving position is excellent, the seats are supportive, and visibility is impressive.
