Expert Reviews:

Edmunds.com: Jeep Liberty earned a perfect five stars for driver protection in a frontal impact and four stars for front-passenger protection. Side-impact testing resulted in a five-star rating for both front and rear passengers.

newCarTestDrive.com: We've also found the Liberty capable of handling fairly gnarly trails. It tackled steep ditches and gullies on an off-road trail, thanks to its short front and rear overhangs and a suspension that articulates well. We appreciated its tight turning radius while weaving through a stand of tightly spaced trees. We clambered over big rocks and fallen trees and slowly forded boulder-strewn creeks with 18 inches of rushing water.

KBB.com: We found that drivers of all sizes seemed to like the Liberty's seats and gave them high marks for long-range comfort. We also noticed that the same supportive lower-back design was carried over to the rear seat, a rare occurrence within this class of vehicle.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
