Expert Reviews:

Edmunds.com: Added refinement and still-substantial off-road capability make the fully redesigned 2011 Jeep Grand Cherokee a competitive choice for a midsize crossover.

newCarTestDrive.com: There's a new DOHC V6 that's smooth and powerful, making 290 horsepower and getting 16-23 mpg. There's a new super-stiff chassis with well-tuned independent front and rear suspensions that provide a comfortable ride on any surface, with solid and secure cornering.

KBB.com: The optional Quadra-Lift air suspension is an excellent supplement to the Grand Cherokee's four-wheel drive systems. When raised to maximum height, the system creates 10.7 inches of ground clearance and improves approach and departure angles along with break-over height.

CarAndDriver.com: The new Grand Cherokee is a return to form for Jeep. Based on the next-gen Mercedes ML architecture, the Jeep is a refined and luxurious SUV that looks elegant inside and out.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
