Expert Reviews:

Edmunds.com: Added refinement and still-substantial off-road capability make the fully redesigned 2011 Jeep Grand Cherokee a competitive choice for a midsize crossover.

newCarTestDrive.com: There's a new DOHC V6 that's smooth and powerful, making 290 horsepower and getting 16-23 mpg. There's a new super-stiff chassis with well-tuned independent front and rear suspensions that provide a comfortable ride on any surface, with solid and secure cornering.

KBB.com: The optional Quadra-Lift air suspension is an excellent supplement to the Grand Cherokee's four-wheel drive systems. When raised to maximum height, the system creates 10.7 inches of ground clearance and improves approach and departure angles along with break-over height.

CarAndDriver.com: The new Grand Cherokee is a return to form for Jeep. Based on the next-gen Mercedes ML architecture, the Jeep is a refined and luxurious SUV that looks elegant inside and out.

Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
