Expert Reviews:

Edmunds.com: The control layout is as user-friendly as ever, and given the large selection of electronics, it's unlikely anyone riding in the JGC will succumb to road-trip boredom.

newCarTestDrive.com: We found the seats to be larger and cushier than in any previous Jeep, with supportive contours. There's more travel in the seat tracks, allowing more legroom for tall drivers. There's also increased headroom, which adds the feeling of extra space to the interior.

KBB.com: The Grand Cherokee's handsome straight-edge lines are distinctive enough to set it apart from the crowded SUV field, but in case you find yourself second guess, you need look no further than the trademark Jeep grille. Large flared wheel arches and aggressively styled wheels project the kind of rugged, off-road look Jeep loyalists demand.

ConsumerReports.org: The Grand Cherokee clambered up our steep rock hill with ease and the hill-descent feature helped it crawl down mud or gravel slopes without using the brakes. Braking is very good overall.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
