Expert Reviews:

Edmunds.com: Strong acceleration and fuel economy for both engines; rewarding handling; composed ride; comfortable front seats; user-friendly electronics; solid interior quality.

newCarTestDrive.com: Innovative mechanical components, carefully tuned ride and handling, advanced cockpit connectivity features and sleekly contemporary styling that belies its price class.

KBB.com: The 2013 Nissan Altima's cabin is finely crafted with soft-touch materials, but its prime attraction is NASA-inspired "zero gravity" front bucket seats, which approach the relaxed "neutral posture" that the human body assumes in a weightless environment.

CarAndDriver.com: This mid-size sedan is lighter than its predecessor, more efficient, and very spacious.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
