Edmunds.com: More than just a show pony, the Ford Mustang offers enthusiasts on a budget a tempting combination of potent performance and timeless styling.

newCarTestDrive.com: It delivers the bold styling, rear-drive performance and affordability that have been Mustang hallmarks for decades, but it's smoother, quieter and better built than older models.

KBB.com: If you're a fan of the affordable, powerful, rear-wheel-drive vehicles that have defined the American muscle car, you'll find the Ford Mustang a properly refined version and thoroughly satisfying.

CarAndDriver.com: America's pony car gets fresh sheet metal, a nicer interior, and suspension tweaks for '10. Better materials inside and sharper dynamics make the Mustang tons (literally) of fun.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
