Expert Reviews:

Edmunds.com: Powerful V6 and V8 engines; capable handling; excellent brakes; Ford Sync system; performance customization.

newCarTestDrive.com: Standard safety features include six airbags, all the stability and skid-management electronics and Ford's MyKey system, which allows parents to limit speed and audio volume when they hand the key to teens.

KBB.com: Refusing to give up its solid rear axle design, Ford has created for the 2012 Mustang an inexpensive rear suspension that performs quite well and is as comfortable in cruise as it is quick in the corners.

CarAndDriver.com: Updated last year with an entirely new engine lineup, these droptop ponies sound good (V-6), amazing (GT), and brain-meltingly euphoric (GT500).

Manufacturer's website: Since making its debut at the New York World's Fair in 1964, Ford Mustang has earned its place as a true American icon.

Consumer Guide: Any Mustang offers an attractive blend of performance, swagger, value, and surprising usability.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
