Expert Reviews:

newCarTestDrive.com: The new Stow 'n Go seating design makes it more versatile than the competition' Chrysler's new second- and third-row seats fold perfectly flat, flush with the floor.

KBB.com: If you've found the ride and handling of other minivans too soft or too firm, you might appreciate the Chrysler minivans' balance between highway comfort and around-town responsiveness. We also appreciated the surprisingly competent steering and braking response.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
