Expert Reviews:

Edmunds.com: For those who yearn for the good ol' days of good ol' boys and good ol' horsepower, the Charger's big-time power and brash styling represent a welcome revival.

newCarTestDrive.com: Mercedes engineers could learn something from Dodge. Pedal feel is firm, braking is reassuringly linear, and there's no perceived interference from the electronic watchdogs, yielding smooth, controlled stops.

KBB.com: Dodge Charger merges American styling and muscle with suspension and transmission technology borrowed during the short-lived merger between Daimler and Chrysler. The result yields a car that can outrun just about everything in its price class and several others costing tens of thousands more.

ConsumerReports.org: The brakes stopped the Dodge in very short distances. Low- and high-beam headlights reach a good distance.

Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
