Expert Reviews:

Edmunds.com: For tire-burning power and Hollywood flash, it doesn't get much better than the 2012 Chevrolet Camaro.

newCarTestDrive.com: The front seat slides 8.5 inches and the steering wheel tilts and telescopes, so drivers of all sizes will fit, most notably Camaro's many female buyers.

KBB.com: When it comes to things like safety and fuel economy, today's Camaro is light years ahead of its ancestors, yet it is equally as powerful as the most legendary Camaros of yore.

CarAndDriver.com: Classic styling made modern, excellent chassis, brakes are up to the task of countering the V-8's 426 horsepower, and approachable prices.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
