Expert Reviews:

Edmunds.com: On the highway, the Buick LaCrosse rides smoothly and soaks up the bumps without transferring the impact to occupants -- the mark of any good full-size sedan.

newCarTestDrive.com: To improve crash safety and reduce noise, Buick used generous amounts of expensive, high-strength steel, a magnesium cross beam behind the instrument panel, another cross beam behind the rear seats, steel reinforcements in the rocker panels, an interlocking door latch system, high-strength steel door beams, a double-thick Quiet Steel floor pan and firewall, and structural foam in the front fenders.

KBB.com: If you're looking for a comfortable family sedan with good power, subtle style and a clean interior, the Buick LaCrosse should be at the top of your list.

ConsumerReports.org: The LaCrosse rides comfortably, managing to be both supple and controlled. Bumps are well-absorbed, and the highway ride is well-isolated. Road and wind noise are well-contained. The Buick was responsive and fairly agile in corners.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.

Expert Reviews

Expert Reviews are excerpts from reviews and automotive awards from sites across the internet. The sites include newCarTestDrive.com, Edmunds.com and other similar sites.

The positive Expert Reviews are only excerpts of the full article or review. The full article may contain additional comments, both positive and negative, regarding the vehicle. For a more complete understanding of the scope of the review, you should read the entire review or award, which can be obtained from the referenced site.
