Expert Reviews:

Edmunds.com: In creating the Pilot, Honda's goal was to build the ultimate American family adventure vehicle. To meet the challenge, the Pilot SUV is equipped with seating for eight, a powerful V6 engine, a versatile interior, capable road handling and a reasonable level of off-road ability.

newCarTestDrive.com: Ride and handling is more similar to that of midsize cars than it is to truck-based SUVs. The Pilot is stable at highway speeds, nimble in parking lots and sufficiently well-damped to run over winter-buckled and pothole-laden urban streets without discomfiting its passengers.

KBB.com: When it comes to ride, handling and overall maneuverability, few other SUV's that cross the 4000-pound mark can stack up to the Pilot. Above all other attributes worthy of praise, the Pilot's excellent display of proper road feel, steering feedback and composed suspension earn it an A plus, plus.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
