Expert Reviews:

JDPower.com: The Acura MDX is a Top Safety Pick according to the Insurance Institute for Highway Safety and also receives top-notch crash-test scores from the National Highway and Traffic Safety Administration.

Edmunds.com: Both sensible and desirable, the 2011 Acura MDX is a standout for its brand and its class. Definitely a top pick.

newCarTestDrive.com: We drove a 2011 MDX Advance model, which has thicker antiroll bars to help it corner flatter and turn better. We found it does that superbly.

KBB.com: In its pursuit of greater performance, the 2011 Acura MDX has given up nothing in practicality. For example, the MDX offers 15 cubic feet of cargo capacity behind the third row, which is just two cubic feet less than the full-size Chevrolet Tahoe.

CarAndDriver.com: It's rare to associate the words agile and carlike with a 4600-pound SUV, but this biggest of Acuras is light on its feet and reasonably quick, as well as quiet, comfortable, and stable on all surfaces.

Vehicle History Highlights:

- CARFAX Buy Back Guarantee
- CARFAX No Total Loss Reported
- CARFAX No Frame Damage Reported
- CARFAX No Airbag Deployment Reported
- CARFAX No Odometer Rollback Reported
- CARFAX No Manufacturer Recalls Reported

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
