Expert Reviews:

Edmunds.com: Both rows of seats offer plenty of space -- particularly in back, where three people can fit comfortably in the MKX's wide body. With the rear seats lowered, the cargo area expands to a maximum of 69 cubic feet

newCarTestDrive.com: Cargo space is generous. Cargo capacity can be doubled merely by pressing a lever on the side that folds the split rear seat sections flat; no mucking about with headrests or guessing which lever does what. With the second-row seats folded, the MKX offers 68.6 cubic feet of cargo room, and there is a healthy 32.3 cubic feet with all seats deployed.

KBB.com: The 60/40-split second-row seat provides impressive roominess in all dimensions and can fold forward into a level floor or recline up to 15 degrees with the same easy-to-use handle.

ConsumerReports.org: Curtain head-protection air bags, extending to protect both front and rear seat outboard passengers, and seatback-mounted side-impact air bags are both standard. They supplement required front air bags and three-point seatbelts in all seating positions.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
