Expert Reviews:

Edmunds.com: Although it's built to take on the most demanding tasks, the Dodge Ram 3500 is still a relatively comfortable truck. The steering is light and the Ram 3500's turning circle is smaller than that of other heavy-duty pickup trucks. Ride quality is also respectably supple and nearly as comfortable as that of most half-tons.

newCarTestDrive.com: The Ram Heavy Duty models are equally at home serving solo contractors, landscape crews, or families with big toys, and everyone in between. Despite a reputation for being the most truck-like, the heavy-duty Rams are civilized and make trucking enjoyable.

KBB.com: Anyone who regularly needs the services of a rugged, high-capacity pickup with excellent powertrain choices, lots of room and stellar towing capabilities should find some iteration of the Dodge Ram 2500 or 3500 worth considering.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
