### Expert Reviews:

Edmunds.com: We're impressed with the Yukon XL's smooth, comfortable ride quality and easy-to-drive nature. Thanks to a stiff frame and a well-insulated cabin, this big SUV is generally quiet and rattle-free, making it a great long-distance cruiser.

newCarTestDrive.com: The standard Premium Smooth Ride suspension in the 1500 soaks up large potholes and rough surfaces. The independent front suspension flattens the most rugged terrain, so passengers feel coddled, while the solid rear axle maximizes towing capability.

### *JDPower.com Power Circle Ratings*

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.

### *Expert Reviews*

Expert Reviews are excerpts from reviews and automotive awards from sites across the internet. The sites include newCarTestDrive.com, Edmunds.com and other similar sites.

The positive Expert Reviews are only excerpts of the full article or review. The full article may contain additional comments, both positive and negative, regarding the vehicle. For a more complete understanding of the scope of the review, you should read the entire review or award, which can be obtained from the referenced site.
