Expert Reviews:

Edmunds.com: A new, fully boxed frame, along with a redesigned suspension, helps the Chevy Avalanche provide more refined ride and handling dynamics than before, and the adoption of rack and pinion steering (which replaces the old recirculating-ball setup) gives it better on-road feel and a tighter turning radius.

KBB.com: In addition to Flex-Fuel capability, new Active Fuel Management technology lets the V8 engine switch automatically from eight- to four-cylinder operation, during lighter-load conditions, to reduce fuel consumption.

medley: New Active Fuel Management technology improves fuel economy, while a redesigned suspension, and rack-and-pinion steering allow the Avalanche to take tight turns with confident stability and produce a smooth power flow.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.

Expert Reviews

Expert Reviews are excerpts from reviews and automotive awards from sites across the internet. The sites include newCarTestDrive.com, Edmunds.com and other similar sites.

The positive Expert Reviews are only excerpts of the full article or review. The full article may contain additional comments, both positive and negative, regarding the vehicle. For a more complete understanding of the scope of the review, you should read the entire review or award, which can be obtained from the referenced site.
