### Expert Reviews:

Edmunds.com: ...the Sierra's thickly padded seats promise plenty of long-trip comfort. Although the cabs' basic dimensions are unchanged from those of last year, there is a smidge more rear legroom than before...

KBB.com: With the new styling come practical innovations like corner steps built into the rear bumper. These provide a foothold for bed access, and by design are covered to mitigate slipping in wet environments.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
