Expert Reviews:

Edmunds.com: Thanks to improved fuel economy, a welcoming cabin and enhanced infotainment features, the 2013 Nissan Sentra becomes a much more desirable choice in the small sedan class.

newCarTestDrive.com: The understated but sophisticated design makes the Sentra one of the best looking compact sedans, which makes it a standout in a class whose best-sellers are about as compelling as a toaster.

KBB.com: The theme continues all the way back into one of the category's biggest trunks. The new Sentra is roomy enough, in fact, that it's one of a handful of compact sedans classified as mid-size by the EPA.

CarAndDriver.com: Attractive styling and an elegant interior prove just how far the Sentra has come since its humble beginnings.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
