Expert Reviews:

JDPower.com: The Avalon is Toyota's largest passenger car, offering a plush interior, state-of-the-art electronics and a reputation for durability and resale unmatched in its class.

Edmunds.com: The Toyota Avalon has long been among our favorite large cars in the under-\$40,000 price bracket. Not only is it spacious and comfortable, it has a well-deserved reputation for quality and reliability that rivals are hard-pressed to match.

newCarTestDrive.com: The Avalon stands out most for smoothness and quiet operation. The tranquility is a function of many things, including its underlying design, vibration mitigating features and good build quality. Whatever the reasons, the Avalon is smoother and quieter than many sedans that cost a lot more. It offers solace in a busy world, and it helps minimize the stress and aggravation that are increasingly by-products of commuting and running errands on our crowded streets and highways.

KBB.com: The Avalon offers full-size car buyers a modern, front-wheel-drive sedan with an impeccable history of excellent service, outstanding quality and best-in-class resale.

ConsumerReports.org: You could almost mistake the Avalon's interior for that of a Lexus.

All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
