Expert Reviews:

Edmunds.com: Above-average ride and handling; roomy and comfortable cabin; dent-resistant bed with innovative trunk compartment and two-way tailgate.

KBB.com: If more trucks offered independent rear suspension (rather than a live axle), we'd hope more trucks would offer an in-bed trunk. It's an absolutely great idea that expands the utility of the Ridgeline almost exponentially.

CarAndDriver.com: Decently quick, extremely smooth ride and agile handling by pickup standards, this won't wimp out when the pavement ends.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
