Expert Reviews:

Edmunds.com: An excellent choice for the weekend off-road warrior who still needs an SUV civilized enough for the Monday-through-Friday commute.

newCarTestDrive.com: The 4.0-liter V6 that's used in the Xterra is a great engine, a stroked version of the award-winning 3.5-liter that's used in the 350Z sports car and other Nissans.

KBB.com: Around town and on the highway, the Nissan Xterra rides and handles impressively; it tracks straight, rides smooth and handles even higher-speed sweeping turns as calmly and confidently as a solid sedan.

Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
