Expert Reviews:

Edmunds.com: Because of its able handling and powerful engine, we consider the Nissan Quest more of an enthusiast-oriented option in the minivan category.

KBB.com: The Quest shares its basic platform with Nissan's Maxima, Murano and Altima. To that end, it not only delivers car-like ride and handling characteristics, but its on-the-road composure is more refined than might be expected of a minivan; you can be assured of accurate steering, competent braking and sure-footed roadholding.

ConsumerReports.org: The ride is supple and steady, with responsive and secure handling.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
