Expert Reviews:

Edmunds.com: The BMW X5 is simply one of the best-handling midsize luxury SUVs you can buy. Some competitors offer more utility and many are more adept off-road, but the X5 does an amazing job of taking the sensations and talents of BMW's legendary sport sedans and translating them over to the SUV world.

newCarTestDrive.com: You won't find an engine that delivers its power more evenly than BMW's V8. Acceleration builds quickly when you step on the gas, regardless of how fast you're already going, but it's never rough or intrusive. Deep dips on the gas pedal generate a distant growl that reminds a driver of the capability under the hood, but the growl doesn't intrude on conversations or create more vibration inside the X5.

KBB.com: The driving experience afforded by the X5 is nothing short of astounding. Even though you're sitting a good ways up, the X5 exhibits none of the lean or roll commonly associated with tall vehicles.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
