Expert Reviews:

Edmunds.com: "Throne" would be a better term, as the cushion is so high that rear passengers will feel as though they're looking down on those in front. All but the longest of leg will actually be able to rest their hamstrings flush against the cushion

newCarTestDrive.com: Subaru's all-wheel-drive system, which comes standard, gives the Forester outstanding traction and capability in foul weather and it's fully equipped with safety features. Forester achieved the best-possible five-star rating in all government crash tests, and a four-star rating for resistance to rolling over.

KBB.com: Getting in and out of both rows of seats was a breeze thanks to wide-opening doors, and we found the all-around visibility from the driver's seat to be excellent; a boon when changing lanes, reversing, and exploring dirt roads.

ConsumerReports.org: The rear seat is a big improvement over the old Forester. It's roomy enough for adults and has a nicely contoured and supportive cushion.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
