### Expert Reviews:

Edmunds.com: The SH-AWD system in the Acura RL works transparently but very effectively to maintain traction under the worst of circumstances and, along with the newly firmed-up suspension, provide cornering abilities that are more "sports car" than "luxury sedan." Acura's flagship sedan offers a nice balance between a cushy ride and competent handling and, as a result, makes an excellent everyday luxury sport sedan.

newCarTestDrive.com: Acura's innovative all-wheel-drive system makes the RL easy to drive and helps keep its driver out of trouble. Called Super-Handling All-Wheel Drive, the system overdrives the outside rear wheel when motoring around corners, improving the handling balance and enhancing stability. Indeed, the RL is very stable in corners. We found it smoothes over minor driver errors, making us look and feel skillful.

KBB.com: On the racetrack, the Acura RL's Super Handling All-Wheel Drive (SH-AWD) system had an obvious effect on handling, ensuring crisp steering response and precise control and direction through the corners.
