JDPower.com Ratings:

- Predicted Reliability Rating
- Initial Quality Survey (IQS) Overall Rating
- Automotive Performance, Execution and Layout (APEAL) Overall Rating

Expert Reviews:

Edmunds.com: The SH-AWD system in the Acura RL works transparently but very effectively to maintain traction under the worst of circumstances and, along with the newly firmed-up suspension, provide cornering abilities that are more "sports car" than "luxury sedan." Acura's flagship sedan offers a nice balance between a cushy ride and competent handling and, as a result, makes an excellent everyday luxury sport sedan.

newCarTestDrive.com: Acura's innovative all-wheel-drive system makes the RL easy to drive and helps keep its driver out of trouble. Called Super-Handling All-Wheel Drive, the system overdrives the outside rear wheel when motoring around corners, improving the handling balance and enhancing stability. Indeed, the RL is very stable in corners. We found it smoothes over minor driver errors, making us look and feel skillful.

KBB.com: On the racetrack, the Acura RL's Super Handling All-Wheel Drive (SH-AWD) system had an obvious effect on handling, ensuring crisp steering response and precise control and direction through the corners.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.

Expert Reviews

Expert Reviews are excerpts from reviews and automotive awards from sites across the internet. The sites include newCarTestDrive.com, Edmunds.com and other similar sites.

The positive Expert Reviews are only excerpts of the full article or review. The full article may contain additional comments, both positive and negative, regarding the vehicle. For a more complete understanding of the scope of the review, you should read the entire review or award, which can be obtained from the referenced site.

NADA Used Car Guide - Retail Value

Actual valuations for 2008 Acura RL Tech Pkg with 52,507 miles will vary based upon optional equipment selected by the dealer, market conditions, specifications, vehicle condition or other particular circumstances pertinent to this vehicle.
