Expert Reviews:

Edmunds.com: Drive the Murano back to back with a Ford Edge, Chevrolet Equinox or Toyota Venza and you'll notice that this stylish Nissan provides more connection to the road, a more polished ride and an unusually upscale cabin that could easily be confused with an Infiniti's.

newCarTestDrive.com: We think the Nissan Murano ranks right up there with the best of them.

KBB.com: If you're looking for a crossover SUV that appears more like a sports car than a utilitarian family hauler, the Nissan Murano lands at the top of a very short list.

ConsumerReports.org: Fairly quick steering and contained body roll help make the Murano quite responsive for a midsized SUV.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
