Expert Reviews:

Edmunds.com: The Highlander has a carlike unibody design which leads to better handling, less cabin noise, improved crashworthiness and easier entry and exit for passengers.

newCarTestDrive.com: Highlander feels at home around town, amidst traffic lights and parking seekers. It's a good size for city streets and soaks up potholes and irregular pavement well. Rolling into suburbia, the Highlander fits right in. It's a natural mall-crawler, maneuverable and quick to nose into a parking slot.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
