Expert Reviews:

Edmunds.com: The new 2011 Scion tC is a good choice among compact coupes thanks to its roomy interior and generous cargo capacity.

newCarTestDrive.com: The suspension is MacPherson strut front and double-wishbone rear, and it's firm enough for everyday driving, the ride comfortable without being soft.

KBB.com: The 2011 Scion tC compact hatchback is an urban alternative to the Honda Civic coupe and Kia Forte Coup, offering more flash for less overall cash and a no-hassle, no-haggle dealership experience.

CarAndDriver.com: The larger, 2.5-liter four has more grunt and the handling is sharper, but, as before, the main selling point is the stereo and standard features, including a sunroof, for a nice price.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
