Expert Reviews:

Edmunds.com: Sharp styling inside and out; simple controls; good fuel economy; sporty handling; strong value.

newCarTestDrive.com: The materials are nice. The seats are supportive and comfortable. There's plenty of room in both the front and rear seats, with comfortable seating for four, capability for five.

KBB.com: The dashboard and interior panels, although mainly hard plastic, are nicely textured. The controls are within easy reach, feel substantial - the beveled window switches are especially nice - and operate smoothly.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
