Expert Reviews:

Edmunds.com: We think the Kia Soul is a compelling new entry in the economy car market: one with a pleasant driving character, lots of space, good build quality, loads of available features, a low price and a lengthy warranty.

newCarTestDrive.com: Kia is heavily pitching personalization, offering many accessories and ways to attach your identity to your Soul.

KBB.com: The arrival of the Kia Soul puts an end to Scion's near monopoly on economical, versatile, boldly styled cars aimed directly at the younger set.

CarAndDriver.com: A well-packaged box that offers a better driving experience than the Scion xB or Nissan Cube. The rear seat is very comfortable for two, and the interior looks nice for the price.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
