Expert Reviews:

newCarTestDrive.com: The BMW 3 Series cars are the quintessential BMWs. They accelerate, turn and stop with remarkable agility and balance, without seriously compromising comfort or common sense.

KBB.com: While any number of manufacturers will adapt key elements of BMW's mainstay into their product portfolio, no one - to date - has duplicated the 3's seductive combination of performance, handling and day-to-day utility.

Automedias.com: Offers still more of that delightful driving character and balance with a choice of 3.0-liter naturally aspirated or turbocharged I-6 power and a whole lot more.

CarAndDriver.com: Possibly the best true four-place droptop; the 3-series convertible combines agility, a tied-down ride, comfort, and access to the sky.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
