Expert Reviews:

Edmunds.com: The latest BMW 5 Series is a well-balanced machine that can handle aggressive driving on winding back roads just as easily as it dispatches weekday commutes on crumbling expressways. The 5's adeptness at both ride comfort and handling prowess borders on the amazing. The steering is equally sublime, with perfect weighting and a near-telepathic feel.

newCarTestDrive.com: BMWs are defined by excellent powertrains and superb chassis tuning. Measured by its balance of crisp handling, ride comfort and solid acceleration, the 5 Series is as good as it's ever been.

KBB.com: If you like cutting-edge design and enjoy driving something that's unique and highly distinctive, the 5 Series is more than worthy of consideration. Its innovative exterior is bested only by the amount of technology inside the cabin, under the hood and throughout the chassis and suspension.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
