Expert Reviews:

newCarTestDrive.com: The BMW 3 Series cars are the quintessential BMWs. They accelerate, turn and stop with remarkable agility and balance, without seriously compromising comfort or common sense.

KBB.com: While any number of manufacturers will adapt key elements of BMW's mainstay into their product portfolio, no one - to date - has duplicated the 3's seductive combination of performance, handling and day-to-day utility.

Automedia.com: Offers still more of that delightful driving character and balance with a choice of 3.0-liter naturally aspirated or turbocharged I-6 power and a whole lot more.

CarAndDriver.com: Possibly the best small and sporty utility vehicle, the 3-series wagon combines straightforward controls, a comfortable but firm ride, and excellent dynamics.

- AutoCheck No Total Loss Reported
- AutoCheck No Frame Damage Reported

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
